

# HD-ULTRA

## Introducing the Multi-Parameter Hemodynamics Monitoring System

The HD-Ultra provides the first-ever non-invasive, 4-in-1 monitoring system that can conveniently and efficiently be used by healthcare professionals worldwide

### KEY ATTRIBUTES

Innovative technology providing a safer and non-invasive method to conduct continuous monitoring of:

#### CVP - Central Venous Pressure

- FVI - Fluid Variation Index
- PI - Pulse Strength Index

#### SjvO<sub>2</sub> - Jugular Venous Oxygen Saturation

- TPI - Tissue Perfusion Index
- BVF - Blood Volume Fraction
- PI - Pulse Strength Index

#### SpO<sub>2</sub> - Arterial Oxygenation

- BPM - Beats Per Minute

#### CI - Cardiac Index
